2026 Camp

Next year's Summer Camp will feature a broader thematic scope.

It will incorporate new elements from our upcoming specialised courses, including:

- *Creactionality: Design Thinking for Innovative EU Project Development*
- *Industrial Transition & Innovative Clusters*
- *Digital Transformation in Practice: Strategic Tools for Business Innovation*

As the European Academy plays an active role in Dissemination and Project Management across a wide range of EU-funded initiatives, next year's programme will place even greater emphasis on real projects, practical cases, and collaborative development. Participants will also have the opportunity to take part in the Summer Camp as an integrated element of their project activities, benefiting from visibility, networking, and tailored content aligned with their project goals.

European Academy: Your Trusted Partner for EU Projects

European Academy takes vital roles to solidify the success of EU Funded projects

- *Project Management & Coordination*
- *Dissemination, Communication & Exploitation*
- *Financial Administration & Recordkeeping*
- *Consortium Building*

Contact us with your idea to see how European Academy can support you as a specialised partner offering high-level expertise.

Final Closing Message

Dear participants,

Thank you for being part of the **Athens 2025: Advanced EU Funding & Project Innovation Camp!**

It has been a real pleasure to host you and work together over these past few days. We hope that this experience has equipped you with valuable knowledge, practical tools, and new perspectives to apply in your future EU project activities.

 You will soon receive a **post-training survey**. Your feedback is essential to help us improve future editions of our training programmes and to ensure we continue to deliver content that meets your needs and expectations.

Final Closing Message

📢 If you plan to share any impressions, photos certificates or highlights from the Camp on **LinkedIn**, we warmly invite you to tag the [European Academy](#) and the expert team who contributed to this training:
